Stone ..... beyond imagination

## Natural Slate Stone Veneer

### New for interiors & exteriors.

If you like the effect of natural stone, but you like to reduce the costs of supplying or fitting it across several square meters, we have the answer! No not a product that looks like natural stone a product that is natural stone that can curve and bend around nearly anything!

### Thickness total only : 2 mm

Our unique product can be installed as either a complete sheet for a whole wall covering or to give the impression of block work. For curved or shaped buildings, our natural stone veneer is a very unique product and can be easily used. Our Natural Stone Veneer can also be used in wet areas such as bathrooms, swimming pools and shower areas with the use of appropriate grade adhesives and sealants. Pliable enough to be used on pillars & corners.
